**HONEYWELL SAFETY PRODUCTS INTRODUCES UVE X XMF™  
TACTICAL GOGGLE FOR  
LAW ENFORCEMENT PROFESSIONALS**

*High-Performance Safety Eyewear Delivers Precision Optics and  
Superior Coverage, Comfort and Ballistic Level Impact Protection*

**SMITHFIELD, R.I. — Aug. 5, 2013 —** Honeywell (NYSE: HON) introduced today the Uvex XMF™ tactical goggle, a high-performance protective goggle that delivers precision optics as well as superior coverage, comfort and ballistic level eye protection. The goggle's aggressive styling and low-profile design ensure compatibility with helmets, night vision and communications devices to instill confidence and protect in nearly any tactical application.

“This is our most versatile goggle for police and security officers yet,” said David Iannelli, senior product manager for Honeywell Safety Products. “By combining the added protection of a goggle with high performance features in optics, comfort and compatibility, the Uvex XMF goggle delivers uncompromising performance to the individuals dedicated to ensuring our public's safety.”

The Uvex XMF tactical goggle features a streamlined cylindrical lens that delivers superior optics and a wide field of view for optimized peripheral vision. Its soft, lightweight body conforms to the face for a secure, comfortable and gap-free fit while the flame-resistant headband easily adjusts to fit, even when worn with head protection. A unique ventilation

system between the frame and lens delivers outstanding moisture control while filtering out dust and debris.

The Uvex XMF tactical goggle is available in Black, Foliage Green and Desert Tan with lenses in Clear or Gray. Its cost-effective lens replacement system allows individuals to quickly and easily switch lenses for different lighting or applications. Uvex Dura-streme® lens coating delivers the ultimate in anti-scratch and anti-fog properties, extending the life of the lens by up to three times and promoting a clear view even in extreme conditions. These and all Uvex brand lenses provide 99.99% UV protection.

An optional Rx insert shields expensive prescription lenses from damage, and a color-coordinated lens sleeve helps protect the goggle when not in use. Made in the U.S.A., the Uvex XMF tactical goggle is certified to ANSI Z87.1-2010, EN 166, CSA Z94.3 and U.S. MIL SPEC MIL-DTL-43511D (Clause 3.5.10).

The Uvex XMF tactical goggle is available now through major safety equipment distributors in the Americas. Contact the Honeywell Safety Products customer care department at 800-430-5490 for more information about the Uvex XMF goggle and where it may be purchased. Uvex brand safety eyewear is offered for sale by Honeywell Safety Products exclusively in the Americas. More information about the complete family of Uvex safety eyewear is available at [www.uvex.us](http://www.uvex.us).
