

Uvex Polarized eyewear uses the same top quality polarized lenses found in high-end sunglasses. These special polarized lenses reduce the oriented light that causes glare.

This allows the wearer to see fine details and deep colors without eye strain.

Available in a stylish brushed silver frame, Uvex Polarized eyewear is as attractive as it is comfortable.

Uvex Polarized, Perfect for Outdoor Applications.

- Polarized lenses are perfect for industries where people work around water, such as fisheries, naval and boating. Also great for other outdoor use applications, such as construction, road work and utilities
- Major sources of reflected polarized light include bright and flat surfaces, such as water and ice; also wet and asphalt roads
- Uvex Polarized lenses are comfortable, attractive and effective at reducing glare for all day wear
- By reflecting polarized light that causes glare, Uvex Polarized safety eyewear can help eliminate eye strain, eye fatigue, discomfort, and poor visual acuity to provide comfort while on the job
- Sleek, wrap around metal frame provides a modern and stylish look
- Spring-hinge frame for a flexible fit
- Adjustable saddle nose pads improve comfort and fit
- Lightweight, durable frame
- Black rubber temple tips offer extended comfort
- 8-base curved lens design provides built-in side protection
- Meets ANSI Z87+ (High Impact) standards

All Uvex® lenses offer 99.9% ultra-violet protection.
